

Impact Report 2024/2025

For the last six months, I've been lucky enough to hang out with the wonderful staff and community that is Sprout Family Services. It has been a pleasure to be with a group of people so committed to the mission and the goals of our organization.

The play groups and ILP home visits, the diapers dispensed and books shared, the training and education provided, and the support given to families have continued to be hallmarks of the services Sprout offers. This level of consistency is not easy to come by, but the staff here ensure it happens, week in and week out. They make sure that the doors are open to anyone in the community who may need our support. Along with honoring our dedication to such community services we can celebrate the future of Sprout.

We are very excited to announce that Jon McGhee is joining the team as our new Executive Director. Jon's history of working in non-profits and leading health care agencies and programs makes him an ideal person to take Sprout in new and exciting directions. His partnership with Board President, Morgan Dwyer, and the Sprout Board of Directors will ensure that Sprout is in good hands for the foreseeable future.

I have truly enjoyed my time here and consider myself fortunate to be part of the Sprout Family. I hope you do too.

*A Note from Sprout's former Interim Executive Director,
Jay Bechtol*
